RAFFLES & PRMOTIONS
Nancy Wojnowski
675-3017

One month in the history books, only 11 more to go. Thank you to everyone for your patience while I attempt to lead this club through the year.

The mega-auction is scheduled for June. Everything that is sold will be split 50/50 between the seller and the club. Doors will open at 6:00 pm for registration and labelling of items. A new project using recycled "garbage" to create an art object to be displayed at the Erie County Fair pond is scheduled for July. The Fair pond clean up went well. No torrential downpour! Thank you to Dennis, Chris, Audrey, Jerry, Sophia, Bill, Ann and myself.

August is the in-house fish show. Bring your fish into the meeting for all to see. The club will have a limited number of 10 gallon tanks for you to borrow, if needed.

The annual Christmas banquet is scheduled at Christie's, Southgate Plaza, West Seneca on Friday December 14. Remember to attend each general meeting to receive a participation ticket. We will use these for a raffle in October where one person will win one free banquet dinner.

Sophia Wroblewski has graciously volunteered to take over the secretarial duties for this year. The June refreshments will be presented by Bill & Sophia Wroblewski. We still need volunteers for July & August. I will have the sign-up sheet available at the June meeting. The club will reimburse up to $25. Don't forget to turn in the receipts to Mary Ann Baumgart.

The next board meeting is Thursday June 28 at the home of Nancy Wojnowski in West Seneca. Everyone is invited to attend. Please see me for directions.

Sincerely,
Nancy Wojnowski

Fair Pond Cleaning 2018

The club is trying something NEW and creative this year! Please set aside a few plastic items that you use in your daily life and bring them to the July meeting. Examples - Dawn D is bringing Kcups and Ann M. is bringing bottle caps.

We are going to assemble a sculpture to be displayed at the club's Erie County Fair pond this year.

Recycle, reduce, reuse is the theme. We should all do our part to make sure something we use once doesn't sit in a landfill for 500 years, or find its way into our streams, rivers or oceans where it can kill aquatic life. There will be some beauty in this trash, we are going to create it.
